Prescription Savings from Canada

We are Canadian based pharmacies that provide prescription and other medicines to American residents who desire to **save up to 80%** on drug prices. We have more than 40 independent professional locations throughout Canada to serve you quickly and efficiently.

You can maximize your savings by accepting our Canadian world-class generic drugs which are manufactured under strict government supervision in licensed and accredited facilities. We also purchase all our drugs and supplies only from licensed wholesalers and supply to you only in original manufacturers' containers for your safety and protection.

Our personal services include reviews of your medical history and prescription order by a Canadian physician as well as the pharmacist who will prepare your order carefully and accurately. We have security procedures in place to ensure the safety and confidentiality of all transactions.
